REQUEST FOR A CERTIFICATE OF CORRECTION UNDER 37 CFR 1.323

ATTN: Certificate of Correction Branch
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In accordance with the provisions of 37 CFR 1.323 of the Rules of Practice which implement 35 U.S.C. 255, the Patent and Trademark Office is respectfully requested to issue a Certificate of Correction in the above-identified patent.

As stated in the attached Certificate of Correction Form (PTO/SB/44), the above-identified patent contains a typographical error in the name of inventor Geetha Mangalore, which appears incorrectly as "Manglore".

Applicant respectfully submits that a Certificate of Correction is appropriate for correction of this error, pursuant to MPEP 605.04(b), which states in relevant part, "When a typographical or transliteration error in the spelling of an inventor's name is discovered If the error is not detected until after the payment of the issue fee, because amendments are not permitted after the payment of the issue fee, either (A) the application must be withdrawn from issue under 37 CFR 1.313(c)(2) and a request to correct the spelling of the inventor's name submitted with a request for continued examination (RCE) under 37 CFR 1.114, or (B) a certificate of correction must be filed

after the patent issues requesting correction of the spelling of the inventor's name.”
Applicant submits this request in accordance with option (B) in MPEP 605.04(b).

It is further noted that pursuant to MPEP 201.03, a request under 37 CFR 1.48 is not required in this case. “Where a typographical or transliteration error in the spelling of an inventor's name is discovered, the Office should simply be notified of the error. A new oath or declaration is not required. Reference to the notification will be made on the previously filed oath or declaration”. MPEP 201.03(B) (citation omitted).

Applicant states that the error occurred in good faith and without deceptive intent, and is of a clerical or typographical nature, or of a minor character. The changes necessary to correct this error in the patent would not constitute new matter and would not require re-examination. As such, Applicant requests the issuance of a Certificate of Correction.
